

# **STUDYING OF THE LEVEL OF TOLERANCE TO LGBT-COMMUNITY IN KAZAKHSTAN**

**LGBT, LGBTQ, LGBTQA, TBLG:** These acronyms refer to Lesbian, Gay, Bisexual, Transgender, Queer or Questioning, and Asexual or Ally. Although all of the different identities within “LGBT” are often lumped together (and share sexism as a common root of oppression), there are specific needs and concerns related to each individual identity.

When you practice **TOLERANCE**, you accept another's ideas and beliefs. If you respect someone's opinions — even if you disagree or find them nonsensical — you display *tolerance*.

**OBJECT OF STUDY:** the citizens of the Republic of Kazakhstan living in the cities of Astana, Almaty, Ust-Kamenogorsk, Semey, Ridder, Zyryanovsk, Shemonaikha.

**TOPIC:** studying of level of tolerance to LGBT-community.

**PURPOSE:** to reveal the actual level of tolerance to LGBT-community in the studied cities.

**METHOD:** anonymous questioning using special questionnaires.

**HYPOTHESIS:** The level of tolerance to LGBT-community in Almaty will be higher than, for example in Zyryanovsk. It is connected directly with the huge lack of an information field about LGBT-representatives, with the absence of openly functioning thematic clubs and other platforms. Small population these smaller cities can also appear the key factor.
